Personal Summary

Web developer with 4 years of experience and excellent coding skills (HTML, Javascript and CSS). I have developed and maintained front/back end, led and participated in various commercial projects.

I am familiar with responsive web development, design principles, object oriented back end language and am experienced in working to demanding deadlines.

Experience

Web Developer, HMM - Feb 2017 - Present (Dublin, Ireland)

Creating highly reusable library components to be used along multiple experiments that compose the e-learning app.

Duties:

- Creating responsive e-learning platform based on one page applications build on JavaScript, ReactJS, Redux, ECMAScript 6, jQuery, pouchDB, JSON, etc.
- Creating user interfaces using HTML5, CSS3 (Sass, Less), Bootstrap, etc.
- Deliver testable, maintainable, testable and multi-language code.
- Review the code (regular Code Review).
- Constantly improving the quality and performance of the product.
- Deploying application on the production.
- Ensure the project is delivered to high standards of quality in all technical aspects
- Identifies inefficient processes and makes recommendations for improvements of them.

Web Developer, XWERX - Feb 2015 – Jan 2017 (Dublin, Ireland)

Creating highly customizable templates and plugins for WordPress including:

- Creating Javascript modules, one page applications for desktop and mobile using jQuery, jQuery UI, Ajax, Json, GoogleMaps etc.
- Using modern JavaScript frameworks like. AngularJS.
- Creating and developing responsive webs based on HTML5, CSS3 (SASS, Less), Bootstrap framework.
- Using other technologies like GruntJS, Gulp.js and more.
- Working in a lean environment in close working relationship with designers so that tasks are completed quickly.
- Convert Photoshop / Invision mock-ups into responsive web pages.

Aitor Palomares
